**SUPPLEMENTAL
INFORMATION DISCLOSURE STATEMENT**

Sir:

In accordance with the provisions of 37 C.F.R. Sections 1.97 and 1.98,
applicant and his attorney respectfully request that the following patent publications,
copies of which are attached hereto, be made of record in the official United States
Patent and Trademark Office file relating to the above-identified application.

Patent Publications Nos.

French Patent Publication No. 2 778 554
International Patent Publication No. WO 02/07648 A1

The foregoing publications were cited in an International Search Report
issued in connection with applicant's corresponding International (PCT) application. A
copy of the International Search Report is attached hereto. With reference to the
attached International Search Report, one can see that it appears to provide some

indication as to the relevance of the foregoing publications perceived by the European Patent Office. In such circumstances, comments concerning the relevance of the foregoing publications are considered unnecessary. Regardless of their relevance, the citation of the foregoing publications should not be construed as an admission that they constitute statutory prior art relative to the present invention.

The International Search Report identifies two additional publications (i.e., U.S. Patent Nos. 5,254,133 and 5,368,602). These U.S. patents were previously cited to the United States Patent and Trademark Office in connection with this application (see the Information Disclosure Statement dated September 27, 2001).

In compliance with the requirements of 37 C.F.R. §1.97(e), applicant's attorney hereby certifies that each item of information contained in this Supplemental Information Disclosure Statement was cited in a communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of this Supplemental Information Disclosure Statement. Having complied with the requirements of 37 C.F.R. §1.97(e), applicant's attorney respectfully requests that this Supplemental Information Disclosure Statement be officially entered and considered in connection with the present application.

Applicant's attorney is not presently in possession of an English-language translation of the French patent publication cited above (i.e., French Patent Publication No. 2 778 554). In the event the Examiner decides that an English-language translation of this publication would be helpful, applicant's attorney will provide the United States Patent and Trademark Office with an appropriate English-language translation of same.

In order to facilitate the Examiner's citation of the publications cited above, applicant's attorney has completed United States Patent and Trademark Office Form PTO-1449. The completed Form is attached hereto for the Examiner's convenience.

No fees are believed to be required in connection with the submittal of this Supplemental Information Disclosure Statement. However, if any such fees are required, the Examiner is hereby authorized to charge them to Deposit Account No.19-1218.

Respectfully submitted,

SELITTO, BEHR & KIM

A handwritten signature in black ink, appearing to read "John K. Kim", is written over the printed name.
